

Ir-USB™ FREEDOM TO USB CONNECTION

Infrared Data Communication (IrDA)

Ir-USB – Freedom to USB physical connection

2

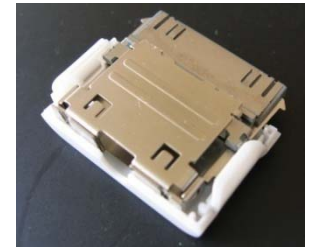

Ir-USB specification allows USB 2.0 connection to be wireless connected by using Infrared communication. Ir-USB eliminates the wear-and-tear of the physical connections and will provide conventional USB 2.0 a freedom to be connected wirelessly.

Features and Benefits of Ir-USB

- **Remove Complicated Physical Connection**
Eliminate the wear-and tear of physical connections
- **Enable Water Proof Usage**
Ir-USB allows water-proof design to seal out moisture
- **Enhance Design Flexibility**
Space saver- eliminate USB connection space.
Ideal for portable devices
- **Easy Docking Station /Charge Adapter**
Simply rest the device on the docking station.
(Power Supply Contact pin is only required)
